Search more than just index fields

ECR Vault is a fast, easy and HIPAA-compliant solution for capturing, storing and retrieving your paper records electronically. **ECR Vault** takes industry leading document management software and combines it with the power of your OfficeMate and ExamWRITER solutions allowing you to scan three to ten times faster. This feature-rich record

management system makes the dream of a paperless office a reality for practices large and small. **ECR Vault** can scan a batch of documents of varying size in a matter of minutes. **ECR Vault** provides a preview of the images along with a set of tools to aid the user in identifying key information and validating data without having to toggle between application screens.

CERTIFIED PARTNER

We partnered with Eyefinity to develop the only integrated, paperless solution in the eye care industry.

Going paperless has never been easier.

Integration scans it right.

ECR Vault uses the power of your OfficeMate to turbo charge the scanning process.

Scanning with high efficiency.

You can scan an entire patient record in one pass. Decrease indexing times by ten fold.

Reclaim your space and time.

Finding, retrieving and re-filing paper is one of the largest personnel costs in the practice. Eliminate it completely!

Save the office.

Paper waste can be a hazard to the office and the environment. Save time and some trees with ECR Vault.
